When I heard about Dr. Miles' Anti-Pain Pills, I bought a box and took them. I feel like a new man now. I can do my work and I am no longer lame. I used four boxes in all and they made me well."

Borderland to Invite Autoists

A Tucson dispatch says:—A bunch of Chandler Boosters for the Borderland route, headed by G. T. Peabody, of the Hotel San Marcos, will arrive the latter part of this week for a conference with John F. Myers, president of the Borderland association. Peabody, working in conjunction with the managers of the San Diego Pacific Exposition, has evolved a plan to get in touch with all eastern autoists who expect to motor to the coast during 1915. This information will be furnished to every town along the Borderland route, and it is expected that each town will have written a personal letter to such autoists, describing the roads in its immediate vicinity, the local attractions, and if possible, making the autoist feel that he is personally acquainted with at least one man at every stop along the road.

This work will be done at practically no expense to the cities along the route, as the exposition company is planning to send their publicity agent, Mr. Hogeboom, on this information gathering trip at their own expense.

TUESDAY

\$100,000 Spent On Free Texts

A Phoenix dispatch says:—

Prof. C. O. Case, state superintendent of public instruction, left last evening on a business trip of the state, for the purpose of checking up with the county superintendents the accounts of text books furnished by the state for the past school year.

The total cost of free text books for the year has just been announced as a trifling over \$100,000; which is at least \$50,000 less than the estimated cost. The books range in price from 6 cents each, for the palmer writing cards, to \$1.35 the cost of the Ancient history.

The following are the amounts that have been actually paid for free text books during the current year:

Apache	\$2,473.91
Cocconino	2,626.76
Mohave	1,532.67
Navajo	3,933.16
Cochise	20,810.11
Gila	6,262.41
Graham	7,417.21
Greenlee	6,622.18
Maricopa	24,218.08
Pima	6,872.04
Pinal	4,445.69
Santa Cruz	2,207.72
Yavapai	5,435.60
Yuma	3,368.89
Total	\$98,186.33

The outstanding unpaid claims amount to about \$3,975.66.

Contingent expenses will amount to about \$1000, but the receipts that are to go to the state from sale and assessment of books will more than offset the expense, leaving, in the rough, the total cost of free text books for the year a little over \$100,000.

THURSDAY

16 Old Pioneers On Waiting List

There are sixteen old pioneers on the "waiting list" for admission to the Pioneer home at Prescott, according to a statement made yesterday by ex-Governor L. C. Hughes, who has been interested in having James W. Gamble, a former pioneer, recommended for the home.

Last Saturday the local superior court examined the qualifications of J. A. Linder for the home, and gave a recommendation that he be admitted, so the number is probably now 17, as no news of any new pioneers being admitted has been received in the city.

Both Linder and Gamble are old settlers, both mining men and are duly qualified for the home.

From Friday's Daily.

Extensive Improvements

Work has been started on the repainting of the Machovich Mercantile establishment, including the outside and interior as well as the roof surfaces. Along in line with other improvements just completed on the store, and bright outlook for the old camp, this comes in at a most opportune moment. Attorney O. Gibson is also having his residence on 3rd street repainted both inside and out, and the management of the Arlington Hotel is having extensive improvements made both in and out. These, together with many more improvements going on in the city speak well for the future, and go more than a long way toward the beautifying of property, and bear out the fact that Old Tombstone is "not dead yet" by far.

Lookout for Mayor

Last night just as a PROSECUTOR representative was going home after the shades of darkness had gathered he heard a commotion on lower Fremont street. Thinking possibly the advance forces of Huerta were advancing on the city and being desirous of making a "scoop" he at once investigated. The road seemed full of running men and his curiosity was even further aroused and upon advanced closer to his surprise and consternation he found it to be our genial Mayor getting in condition for the fat man's race, between puffs, (of breathing-not smoke) he said just say for me. "I have that 5 bones cupped." So it behooves the rest of you fat men to be on your guard, for the genial mayor is out to bring home the bacon.

Power Conway originated the idea and it has received the enthusiastic endorsement of the board directors, who authorized the president to appoint a committee. Florence, Tucson, Tombstone and Douglas will be included in the itinerary.

WEDNESDAY

Overall Makers Sue Globe Merchant

A Miami dispatch says:—The object of the visit to this district of Attorney Henry Asche, the San Francisco lawyer who won international fame as the attorney who represented Abe Ruef at the time the San Francisco boss made his fight, came to light yesterday when a suit was filed by the attorney in the superior court in the interests of Levi Strauss and Co., a corporation, against M. Cohen, a merchant of Globe, proprietor of the Fair store, asking for an injunction and damages against the defendant, Cohen, to keep him from selling overalls made by Albert Mathias & Co., bearing the label of "Levi Strauss Overalls." The Levi Strauss company contend that the article which is made by Albert Mathias & Co. is really an infringement on their articles and has for its object the substituting of goods of a lower grade.

From the complaint it is learned that the Levi Strauss people came into the Arizona field with overalls of a blue color, copper riveted and branded with a leather tag on the back, showing a picture of two horses pulling a pair of overalls manufactured by the company. It is also claimed that this particular kind of overalls became so popular with the Mexicans that they applied the title of "Guzuma" to the Strauss goods, meaning leather, or buckskin, and that the Albert Mathias people even went so far as to put the name "Guzuma" on the overalls manufactured by the Mathias people. The Strauss people allege that the Mathias people not only copy the style of their article but that they manufacture a cheaper grade of goods. On the other hand it is claimed by the Mathias people that there can be no monopoly on the class and character of goods made by the Strauss people.

WEDNESDAY

Thousand Head Of Cattle

A Bisbee dispatch says:—The El Paso & Southwestern railroad has hauled away from Cochise county during the present year 842 cars loaded with cattle from stations in Cochise county, as follows: From Douglas, 366 cars; from Hereford, 318 cars; from Naco, 133 cars, and from Bernardino, 25 cars.

A close estimate made by cattlemen puts the average number of cattle to the car at 40, ranging from 50 for yearlings to 31 for steers, three years old, and cows. At this average, 33,680.

Several cattlemen interviewed, including B. A. Packard, J. T. Hold and Supervisor John Rock agreed that the average price paid for these cattle would be forty dollars per head, and at this figure a total is made of \$1,347,200 as the amount received for cattle shipped from this county over the one railroad. These shipments included many cattle that were brought out of Mexico, the Gene-Catt Company being the heaviest importer from that country. This company made its final shipment on Sunday, sending out 74 cars.

The figures given above do not include the large shipments from the northern part of the county that went out over the Southern Pacific, Willcox, Benson and other loading stations on the S. P., which sent out many trains load with cattle this year, but the number can only be approximated. It is believed that including these shipments there has been not less than two million dollar received this year for cattle shipped from Cochise county, to say nothing of what has been disposed of to the butchers of the county. Many range cattle were butchered during the fall and winter in Bisbee and Douglas and the smaller dealers throughout the county are supplied entirely from the range herds and pastures.

The cattle industry has always been an important one in this county and twenty years ago, before the building of the El Paso & Southwestern road, Willcox was the largest cattle shipping station in Arizona, cattle being driven there from all the territory now patronizing the Southern P., including a large area of the Sonora country.

A Stitch In Time

Little girl, you make me tired;
You, whom I have oft admired,
With your ears both out of sight
And your skirt, so very tight,
Slit in front and in the rear,
Are you going dippy, dear?

Little girl, just take this tip:
Ere that clinging skirt you rip,
Let it out a little, see?
An inch or two, or even three;
And (do not think I'm over bold,)
Sew up one slit or you'll catch cold.

FRIDAY

Libel Suit Is Filed in Tucson

A Tucson dispatch says:—Suit for \$10,000 damages was filed in the superior court of Pima county yesterday by Mrs. Florence M. Roche against the Tucson Printing & Publishing Company, publishers of the Tucson Citizen, for an alleged libelous news story of the divorce proceedings in the superior court on Monday, June 15, when Mrs. Roche was granted a divorce from her husband, Harvey W. Roche, by Judge O'Connor.

Mrs. Roche is represented by Judge Wm. M. Lovell and Edwin F. Jones. In her complaint she alleges that the publication of the article has caused her humiliation and loss of reputation and has damaged her to the amount of \$10,000. The portion of the article objected to, it is understood, relates to the alleged connection of Mrs. Roche with a cult known as "Christian Mystics of the Inner Circle of the Astral Plane."

TUESDAY

Cohen Bound to Superior Court

In the court of Justice Thomas yesterday afternoon, J. Cohen held on a charge of forestry, was bound over to appear in the Superior Court, bond being fixed in the sum of \$1000. He will probably be taken to Tombstone jail today, as he does not expect to be able to raise the amount of the bond immediately.

It has been brought out that prior to issuance of the check to which was forged the name of L. Silberstein, of Savannah, Ga., for \$75 in this city, Cohen issued two checks in El Paso for \$25 each which were also unauthorized. However, he made these checks good before leaving that city and upon his own volition. He claims that he intended making the check here good in the event he received the money and Silberstein failed to credit the signature. However, Cohen did not receive the money here, payment on the check being held up by the bank until injury could be made at Savannah.—Bisbee Review.
